Coaching & Recording

Would you be more energized when giving a presentation if you had more confidence in your public speaking skills?

Expert private coaching sessions are now available to individuals who wish to hone their skills and receive specialized critiquing from public speaking veteran, Linda Thomas AICI CIP. From these sessions, you will gain valuable tips on improving your “delivery” when telling your signature story, when opening an important segment of your presentation, or when successfully closing your program with a memorable “nugget”. Your special coaching session will be videotaped so that you can have it to view at your convenience as often as you like.

"I'm so happy I hired Linda as a speaking coach. Having a video clip is crucial for my business. Companies and individuals want to see who I am and what they are getting. The best way has been to give them a sample of me in a short video.

Linda made the process easy and fun. Best of all, she took years off my learning curve. I really appreciated having a pro train me."

Denise Rehner AICI FLC

For each filmed, three-hour “spotlight” coaching session, the cost is \$495 (\$150 for each additional hour)

You will learn the “do's” and “taboos” for success, as you are guided by Linda (in person or on-line). You can immediately begin to use these professional pointers to become a more persuasive, entertaining, and effective presenter, leaving a positive, long-lasting message with every audience.

"Hiring Linda Thomas as a speaking coach has been one of the best business decisions I've ever made. Linda put her heart and soul into making the most of our time together. It was definitely worth the trip to Dallas to work with her.

Her uncanny ability to distill a multi-dimensional personal story into something that could be delivered in just a few minutes is one of the many traits that sets Linda apart from the rest. The fact that she videotapes the coaching sessions adds a tremendous value. Now that I've worked with Linda, I'm being asked to speak to multiple organizations, which in turn has led to more and more clients. Thank you, Linda, from the bottom of my heart!"
